That's seem further away than I had thought – Sam S has been worried about Axel's physical wellbeing but think we were deferring the conversation about whether we can "treat" eating till after the paed appt – is that reasonable.

Ant sorry no buddy for the appt – did it go ahead. ?

Axel Rudakubana - Before and after being taken off as Case Manager at parents request I tried to escalate this with School - we were supposed to have a MA mtg but School did not come back - not sure if Lakshmi managed to arrange anything. This is a serious safeguarding issue and a new referral needs to be made - I could not make contact with parents at their request to gain their consent or explain that a referral out is needed. Referral was made to Early Help and school were following up to see 'what parents want' (not sure where Axel even features in all of this). It's not a matter for Early Help. Bw

Hi all

Mum cancelled the app with Ant this morning. Axel refusing to attend the app. Saying he doesn't see the point, what else can be offered with Ant than he has with Lakshmi. He is not taking meds.

I have cancelled today's app and pend for when he is ready to be given another app.

Thanks

Colette
