**CAMHS - Closure**

Date of closure:: 23/07/24

Case Manager: Kathryn Morris

Service: Sefton Specialist

Reason for Closure: Treatment completed

Summary of referral:: Referred to CAMHS due to low mood, radicalisation, bringing knife to school, attacks on peers police involvement.

Summary of care::

Axel struggles with his anxiety that prevents him from leaving the home to attend to school and appointments. Axel has frequently expressed that he is happy with his current life and does not want any support other than medication. Previously open to Dr M for medication, now discharged as of 25.04.24

Several DNA Appointments to Case Management CAMHS sessions, therefore as Axel does not consent to CAMHS sessions, agreed with parents and professionals involved that Axel would remain open only to Family Therapy for parental support. Final FT session 26.06.24 now discharged
