**Case
Summary**

Lancashire Police Counter Terrorism unit receive concern referral which states the following about the subject:

Axel was admitted to the Acorns School on 17/10/2019 after a permanent exclusion from the Range High School in Sefton after taking in a knife to injure a fellow student.

On receiving the safeguarding information from Range High School on the Pupil Exclusion Notification, it has been written that Axel admitted to bringing in a knife to Range High School on 10 occasions to "stab someone"-this has not been clarified by Range High School.

There are several CPOMS reported by my colleagues as follows:

15/11/2019

Stephanie Heaton: "During ICT lesson today I found AR searching school shootings in America. When I told him to stop and get on with his work he tried to engage in a conversation about the subject but was told this was not going to happen. I have been told that we can no longer log student web history."

Action by Sharon Evans Form Tutor for Axel: "SE telephoned dad and informed him of incident. SE asked dad to reinforce that this was not an appropriate use of the internet during school. SE asked dad for update regarding CAMHs and was told that he was waiting for school to refer, as this had been agreed at admissions. SE informed J Hodson. Dad returned call a few minutes later, informing SE that AR said he had only copied behaviour of another student, and that he had clicked on a hyperlink to a news story. Mrs Martindale was present during the telephone conversation and said that she would need a few days to get a copy of AR's browser history. SE then informed dad that she would get back to him once this information was available.

29/11/2019

Stephanie Heaton: "At the start of the lesson AR refused to sit down and opted for walking up and down near his seat punching his hand hard. He was told to stop as he would hurt himself. He then sat down and started to work with SM very reluctantly. SM was trying to give him ideas how to promote his business and one suggestion was to tell people that his business was new to the area. He insisted that this would not be good because people would think he would kill them as they did not know him. He said that people don't trust others they don't know in case they get murdered. He was regularly out of his seat and then he walked to the highest part of the ceiling, jumped up and punched a laminate hanging from it very hard"

3/12/2019

Stephen Baker: "Within Art lesson, working with oil pastels colouring in Call of duty images. AR commented saying "Why can we have these with guns but can't look at guns on the Internet" and then said "can we have a picture of a severed head then", Mr Baker replied, this is not appropriate and changed the subject and explained that Art can be drawn with different topics such as still life which looks at the body form. He then tried to mention the topic again and I told him that everything you say is recorded and that the images have been allowed by Miss Cutts-Art Teacher."

3/12/2019

Antony McCann:

"In the workshop AR was discussing different YouTubers and YouTube videos. I couldn't concentrate on exactly what he was talking about or who but I think he was discussing with another pupil videos of people hurting themselves. He also made a comment about if a drill bit broke it could fly off and kill someone, he was quite graphic."

JL tried to contact Matt Chipchase for advice from MASH -left message-regarding referring AR to Sefton Targeted Youth Prevention services on previous recommendation by Alder Hay CAMHS.

"Good afternoon

I have tried to contact Matt Chipchase in regards to a query about the student named below without success. This young person falls between two local authorities and requires a referral to Sefton on targeted youth prevention as his GP is based in Sefton and he is based in Banks West Lancashire. Unfortunately, we are unable to refer without a MASH referral-please can you advise? See link <https://www.sefton.gov.uk/schoolslearning/targeted-youth-prevention.aspx>

4/12/2019

Sharon Evans:

During PSHE, CMcC used a swear word to comment on an image of Nicola Sturgeon on the worksheet students were completing. There were other Political Party leaders on the sheet and AR said, 'He looks like a retard,' in regards to these. SE explained that this was inappropriate and considered 'politically incorrect'; SE also asked AR not to use this word again. He responded by stating that he had heard it used before. SE attempted to explain how the meaning of words changes over time, but AR was not listening and was talking over SE. At the end of the lesson, SE asked SM to log two instances of inappropriate language

by AR, who challenged this as 'I've not used swear words.' SE explained that the log kept by SM was about inappropriate language not just taboo language, and that using the word 'retard' as an adjective describe someone was wrong and hurtful.

4/12/2019

Emily Forrester regarding Axel stating about his Keyworker Sharon Murphy:

'SM is a sexist, she made a joke about men at work'. AR then said 'she is a

homophobic as she was drinking out of a 'Mrs' cup and shouted when we asked was she a lesbian'. AR then said 'she is a racist as well she said Coon earlier. She actually said to me AR you are a coon'. Jane Eccleston Head Teacher spoke to Dad-Emergency review arranged for 5/12/2019 at 11.30am at Acorns.

Jan Lewis contacted Lucy Parkinson from Early Help to inform of emergency review-Ann Cookson her Senior Practitioner and either Jason Ellwood or Paul Harris from Community Safety Team to attend also.

Supervisor Review: I agree with the comments above. At this time there are a number of unknowns. The subject needs to be spoken to in order to clarify his ideology and address the potential risk and threat that he may pose. There are also safeguarding and vulnerabilities to be addressed in particular his ongoing criminal investigation and his vulnerability to radicalisation. Therefore I agree that it is appropriate and proportionate to record this PCMP as Police Led at this time to address these points. Once the information has been obtained if appropriate Channel will be considered

31/12/2019 10:44:08	04005905	Supplementary Case Information	PC Thompson and PC Lawrence visited the subject at his home address on the 31/12/19, the subjects father answered the door who requested we visit on the 03/01/20 in the afternoon as he is a taxi driver and works night shifts officers will revisit on the 03/01/20.

06/01/2020 14:12:55	04005905	Supplementary Case Information	On the 03/01/20 PC Thompson and PC Lawrence visited the subject at his home address with his father present. The subject stated that he felt the school had taken things out of context in relation to his behaviour and online activity. When he was asked about researching the internet about school shootings he stated that he been interested in a news article about this which he had looked at, he told officers that he had not actively searched for this. He stated that he had looked at some "num chucks" on the school internet but he did this to research for a lesson where they were building things. The subject said that he had explained the reasons why he had looked at these things on the internet to the teachers and that they still wrote it down anyway, he said that he felt they were always writing things down about him to get him into trouble. The subject said that he hated it at school and that he did not like any of the teachers and he felt as though they were picking on him. When the subject was asked about the recent incident he had been arrested for he said he had done this because he was being bullied and that he had told the teachers but they hadn't done anything about it, he felt that he was being bullied as the person bullying him was jealous because everyone at his previous school liked him. He said that he had previously taken knives into school as he was being bullied; he stated that he would not carry knives anymore as he understands this is wrong. The subject showed no remorse about what he had done and did not seem to understand the consequences of his actions. The subject told officers he didn't like his brother as he was pretending that he couldn't walk to get attention, he said that he was angry that he had to move schools because of his brother and he lost all of his friends because of him. The subject's older brother is in a wheelchair [REDACTED] DPA [REDACTED] Throughout the conversation the subject displayed traits of Autism as he was not able to make eye contact and was continuously fidgeting and struggled to understand his emotions and was unable to empathise with the victim he recently assaulted. The subject did not display any extremist views or CT/DE ideology during the conversation and has no interest in politics or religion. He has no grievances against any specific groups, the recent assault was towards a pupil that has been bullying him. He does not currently have access to the internet as all his devices have been seized by the police. He would usually play games like Fortnite but is unable to do so until he gets his devices back from the police. The subject is vulnerable as he possibly has autism which is undiagnosed at this stage. There have been changes within the family where [REDACTED] DPA [REDACTED] and he is now in a wheel chair which has meant the subject has had to move home and school. The subject has no friends and is isolated he is not in school as they will not allow him to return until a risk assessment is put into place. He has been a victim of bullying and requires a diagnosis in relation to his Autism so that the right support can be put into place. I do not feel that there are any CT/DE concerns at this stage, however the subject is extremely vulnerable and needs support from other agencies that are already in place, I have advised agencies to re refer to prevent should they have any more concerns in the future and also if any relevant information is found on his internet history from the school or from his devices. this information will be submitted to FIMU for assessment.

06/01/2020 14:35:38	04005905	Supplementary Case Information	On the 06/01/20 PC Thompson attended a strategy meeting in relation to the subject. The subject had his first assessment with CAMHS who have stated that there are no mental health concerns identified but that Autism is apparent and a diagnosis is required urgently. The subject will also attend a Forensic CAMHS appointment on the 21/01/20. The subject is not able to return to school at this stage and alternative education/provision will be considered. A continuous assessment will be carried out by social services and a request for a statutory assessment (SEND) will be made by the parents with the assistance of supporting agencies. It was determined that there was no requirement for a S47 at this stage as the correct agencies are now in place and the relevant support is in place. The school feel that pupils and teachers would be at risk if the subject was to return to school at this stage because he previously made comments that he wanted to get teachers murdered and had been displaying extreme emotions of dislike and hatred which are believed to be traits of autism. The investigation in relation to the recent assault is still on going with Merseyside police and awaiting a CPS decision. The devices are being examined and the school internet history is also being looked at, they will update with any concerns found.
