Subject: Referral Form

CT relevance		
	Yes/no	Rationale
1. Explicit		<p>Subject has been previously referred to Prevent. The outcome of that referral (for which the intelligence was far more concerning) was that he did not have any CT/DE ideology or vulnerable to radicalisation. I have reviewed this new referral which refers to 2 posts he has made on his Instagram page which relate to Gaddafi and discusses whether he was that bad. I have searched for and unable to find any Instagram page associated to him. Likewise I have found no Social Media accounts in his name. The Instagram posts he has made are screenshots from a website, www.newsshopper.co.uk/youngreporter/9394709-was-gaddafi-really-that-bad and is from November 2011. It does not appear that the subject was the author of this report. As such I do not believe this new intelligence is worthy of a new Prevent referral as I do not assess it would meet the thresholds for adoption at Chanel and the content does not suggest he holds any extremist ideology but rather an opposing opinion on Gaddafi's Libian regieme, questioning the US and EU motivation for removing Officer A</p>
2. Implied		
3. Inferred		
4. (a) Is the subject traced on NCIA?		
(b) Will the intelligence develop the picture around the subject?		
5. Action to be raised against CT resource		
6. CSOI (new selectors to be shared/new threat/risk/behavioural intel to JAT).		
7. Not CT/DE relevant	x

No further development (CT/DE relevant) – message to NCIA17J30 for QA	Transfer to NCIA	
JAT submission		
Intelligence enhancement		
IMU redirect	PNN transfer or	

	via NCIA	
Non-CT/DE – but may still require action within force or other agency	Disseminate to relevant department or agency	<i>Consider Intelligence entry, PVP submission, any warning markers that are relevant. State the name/department/organisation that have taken ownership. Provide rationale if no further dissemination takes place.</i>

Good afternoon
