Hi Stephen, thanks for your reply.

Before answering your questions I would like to make a brief introduction so that you can understand the depth of what we are looking for and help me understand if it would be possible.

Right now we have two companies with which we operate, one is in the United Kingdom and the other is in Spain. Before Brexit we sent the merchandise directly from our headquarters in Spain, but nowadays we have more and more problems with customs.

Our intention would be to buy the products from the Spanish company with the English company, and to distribute them in the United Kingdom on behalf of the English company. For this, the idea would be to send one or two "big boxes" (approximately 40x19x34) approximately every week or two weeks, these large boxes would include the orders of our customers (between 10 or 15 smaller packages from each big box, These packages could be sent already packed and labeled so that you only have to include the label of the transport agency) and from your warehouse they would be sent to the final clients.

As the orders will be shipped as soon as possible, it may not be necessary to have a lot of storage space.

With this in mind, I'm going to answer your questions.

- The size of the packages to ship (smallest to biggest in mm)  
12x12x10  
16x12x9  
40x8x9
- The weight of the packages to ship (lightest to heaviest in kg)  
0,5 kg (smallest package) between 1 to 5kg for the "heaviest boxes"
- The countries you would like us to ship to?  
UK
- Do your products come in ready to ship packaging?  
We could include the packages ready for ship
- How many pallets/cubic metres of stock do you seek to store with us?  
usually we don't need more than 5 cubic meters
- What are the commodities/products?  
Outdoor supplies, we are specialized in knives
- What e-commerce platforms do you sell on/where will orders be processed? [www.huntingandknives.co.uk](http://www.huntingandknives.co.uk) (magento 2)
- Are your products clearly labelled with SKU's and/or applicable Barcodes?  
Yes, all the products are clearly labelled with sku  
if any other information is needed please do not hesitate to let me know and we will be happy to provide it.

We look forward to hearing from you.

All the best
