Subject: Axel Rudakabna: DPA

Hi Debs,

We have had a step down for Axel who is a 15 year old with ASD, FIS team are working on Parenting and accessing an appropriate school place but the step down has also identified the need for work to be complete with Axel around social isolation. Family feel that a TYS worker would be helpful so that Axel can develop a relationship with a worker who is not also working with parents as this has caused a lot of conflict in the past. I feel that given Axels interests and vast knowledge of politics Carl would be a great fit for the family, if he has space available.

Louise Lewis is the case holder and is lead professional. Also for your information although the step down did not identify this there are some concerns about how extreme some of Axels views are and the risk that this could pose so we may also need to refer to prevent.

Hopefully you will be able to help by allowing a direct piece of work to take place with a TYS worker.

Thanks for your consideration

Sharon Barrett
