## Age Restricted Products

Any age restricted product will be clearly described as such on the product page for that item.

By placing an order for a product where an age restriction warning is displayed, you are confirming that you are over the required age.

**Warning:** It is an offence to attempt to buy an age restricted product if you are under the required age, or to attempt to purchase one on behalf of someone else who is under the required age.

As a responsible retailer, we want to make sure all our age restricted products are sold only to those of appropriate age. In addition to clearly labelling all our age restricted products we also carry out age verification checks and keep a database of refusals.

If we are unable to get a positive ID match via public means, we will contact you for further information.

If you are unwilling, or unable to provide suitable proof of age documentation, your order will be cancelled.
