Other significant adults in household (if known). Please include relationship and DoB if known:	
What has led you to make this referral? What are your concerns? How does this referral meet the threshold for service(s) using the Sefton LSCB Threshold Guidance http://seftonlscb.co.uk/	<p>School received an email on 08.10.19 (see attached) from PC Alex McNamee of Lancashire Police to say that Axel had been carrying a knife to school. Please see quote from PC McNamee 'there is therefore considerable risk of this seriously escalating.'</p> <p>I, along with another Assistant Head teacher spoke to Axel about this today. He knew he was going to be spoken to about this and agreed for his bag and blazer to be searched. Nothing was found.</p> <p>Axel said he had brought the knife as he was fed up being pushed around by some pupils. Alarmingly, Axel said he would have used it to stab someone if he had to.</p> <p>In a separate matter, which Axel says is unrelated to this, after recently receiving a detention, Axel was overheard saying 'that's how teachers get murdered.'</p> <p>I am concerned about Axel's mental state and the potential risk he poses to himself and others.</p>
Please state what support has been given to the family thus far and what outcomes you are expecting to achieve from this referral:	<p>Police have spoken to the family and Father collected Axel from school this morning. The Police said that a referral to MASH will be made, so this is in support of the steps already made by the Police.</p> <p>Dad said Axel needed support and I explained I would be contacting MASH to secure the support Axel obviously needs.</p>
Please select the applicable Threshold level as details in the LSCB Threshold Guidance 2013. http://seftonlscb.co.uk/	Level 4.

Do any of the following issues affect the parent/ carers ability to provide good enough car for the child?	Safeguarding Hub
