Circumstances

HIGH RISK VA PVP - A referral came from ChildLine regarding Axel, who had made concerning comments to them. Axel has been bullied by a male called [DPA] and Axel has become highly agitated and frustrated regarding this. As a result Axel has taken a knife from his kitchen to school on several occasions.

Axel was spoken to by police and admitted to taking the knife to school previously. He seemed honest throughout and told us that if things escalated with [DPA] then he believes he may use the knife.

Axel was informed of the severity of the offence of simply carrying a knife. He seemed to understand this and became somewhat upset but did seem genuinely frustrated about the bullying. Though the school have taken some safeguarding steps it appears they haven't fully tackled the issues.

The school he attends is RANGE SCHOOL, FORMBY, who have been emailed to appraise them of this. The log has also been deferred for the attention of the AM Sergeant to call the school regarding it so that they can take further action.

Axel's mother is supportive of police investigation and had noticed her knife was missing, though she got it back from Axel as soon as she realised and has now hidden them all.

There was some suggestion from Axels mother that he may suffer from Autism however this is not diagnosed nor confirmed. His brother, Dion, [DPA] and is in a wheelchair. There is additional risk in case Axels behaviour deteriorates to the point where negative behaviour is also developed at home.

Axel and his mother Laetita both consented to their details being shared.

Risk Assessment

Vulnerable Child Risk Assessment
 Risk Rating: High
 Reason For Starting: Axel has been bullied at school and has taken a knife to school. Though he hasn't used it or got it out of his bag this shows potential for huge escalation. Whilst Axel did appear to understand the severity of the offence and potential repercussions the risk is high that he could again take a knife to school.

The school are being made aware and are in Merseyside and Axels mother has taken appropriate action with regards the knives.

Axel definitely needs support around the bullying issue but also intervention around carrying knives. He does have friends but I believe feels isolated and targeted as the bully only goes for him.

The fact that he has told ChildLine and police that he believes he may use the knife in a bullying situation is obviously cause for serious concern.
