What is working well?	Axel was seen by a CAMHS practitioner in January 2023. Elizabeth Walker and Sharon Rowlands from Lancashire SEN are in close contact with the school . Parents communicate with school via email and they come out of the front door to speak on the doorstep when we visit.
What are you worried about and what is the impact of this on the child(ren)?	Axel was last seen by school staff on 25th May 2022. He is not able to engage with school. School staff have attempted to engage with Axel but he is too anxious to see any of us at school or at home. His Dad Alphonse commented that parents will 'pay the price' if staff go into the home and we have been unable to see him. Sefton Council's school attendance team completed a home visit on 20th March 2023. Here is the feedback :- Angela Maguire has visited and met mum who it was reported aired her annoyance and confusion over our involvement. On explaining it was a welfare visit, Angela was greeted with a complaint from mum who it was said saw no reason for the visit and she flatly refused for Angela to see Axel. Discussion was brief given Angela's case information knowledge, and she could only accept mum's complaint informing her that she will pass it on. With this, as we can now evidence that we have exhausted everything to make contact and take sight of Axel, can you now contact Lancashire Police and request a welfare visit to the home. Please share that the young person has not been seen for the time you have recorded. Secondly can you also share again your concerns with Lancashire CME & SEN team. SEN ultimately have the responsibility to address the concerns as part of his plan.
What is the desired outcome of this request for support?	For someone to ensure on the safety and welfare of Axel Rudakubana . For support for Axel as he is currently not attending his college placement and for him to get the support he needs so that he is no longer socially isolated and so unwell with his mental health that he can not see staff from school. I am ticking the box 'no' to the following question 'is the child currently missing' - however I DO NOT KNOW as we have been unable to see him . Parents tell us he is in the house.
What has already been undertaken with the child(ren) YP / family?	I have referred into Lancashire CME team who tell me Axel is not in their remit. I have asked Lancashire police to complete a welfare check to see Axel - collar number 11097 told me that Axel does not meet threshold for a welfare visit. Elizabeth Walker and Sharon Rowland at Lancashire SEN team have been alerted of the situation and Sharon suggested that if we have safeguarding concerns we should report to social care. She has also spoken with the 'duty team'.

### School

MO question re when Axel was last seen is in the referral (views section):

*Axel was last seen by school staff on 25th May 2022*

Requested, by email, school to inform how many visits have been undertaken since the issues started.

School provided an excel sheet with various logs for the family. Since 1st April 2022, they highlighted a total of 6 home visits, one of which was cancelled by family.

Referral response sent to referrer.

### From CSC history

Known since 2019.

2 C&Fs 2020 and 2021:

*2020 - ..... Axel being arrested on suspicion of Section 47 assault, possession of a bladed article on a school premises and possession of an offensive weapon .*

*2021 - This assessment was completed due to father requesting support with Axel's additional needs. Axel has a diagnosis of ASD and he can present with challenging behaviour within both the home and school environments.*

CIN Feb-Mar 2020.

From case summary on LCS:

*Axel wishes to be in school however education feel that he is an unassessed risk currently. Axel has been out of education since 2019 although is receiving work which is being sent home. Axel has since stated that he regrets what's happened. Axel feels that he has ODD and ASD as he has been researching it online.*

There have been 4 EH episodes. Looking at 'forms' on EHM, much CFW intervention has been completed.

Reason for Action Taken	Case recommended to close. Parents were not contactable for the enquiries but have been written to and asked to call MASH if support is needed. Clearly explicit consent has not been gained for this referral. Although Axel is likely to continue to have poor mental health in future if left unaddressed; and not achieve academically, which will impact on his future choices, it is felt there are little grounds to override consent under S47. If parents return call support options can be explored further. CON 3.					
If you have selected Information and Advice/Universal Services/ Information and Advice only which one was it?						
Managers Comments	<p>22.3.23 - MC - Janet can you speak to school as to how many visits they have undertaken? Get the to confirm when they last saw child? Inform PM of outcome - CON 3/4</p> <p>23.3.23 - MC - agree with outcome and that this is closed to CSC - this does not meet threshold for sec 47 and there is no consent - MASH have not been able to speak to parents despite numerous attempts. Letter has been sent and if parents return call the concerns from school can be discussed. CON 3</p>					
Has a referral response been completed?	Yes
