Subject: Children seen/not seen in August

Importance: High

Wow amazing 87% of our new families had visits where the CYP was seen within 7 days – just a reminder that if a mum is seen who is pregnant then that counts too – just remind all your staff 😊

Not seen in 7 days –

DPA

With the good comes the not so good – lots of children not seen in the month, 67 out of 256! – I am putting it down to holidays etc but can we just keep our eye on it. The hard bit now is maintaining it but think we have cracked what wasn't working for us. **OUR DATA ONCE AGAIN IS AMAZING – THANK YOU FOR ALL YOUR HARD WORK YOU ARE ALL STARS**

Not seen in the month – (Sharon can we get Axel closed please)
