FORENSIC RESULT REPORT - FINGERPRINTS			
Relates to (person):	Laetitia Muzayire	Crime/Occ. No:	24000659041
Location:	Cazneau Street	Forensic Case Ref:	24/03196
Date of Offence/Incident:	29/7/2024	Forensic Provider Ref:	
Other Ref 1:	DPA	Other Ref 2:	24/572034Q
Report Provided by:	Fingerprint Bureau	Organisation:	Fingerprint Bureau Merseyside Police
Date of Report:	31/12/2024	Annexes Included with this Report:	None
Examined		Results / Findings	
ME/01/6-VE/32 Mark Location: (ME/01/6) Cerbera knife packaging, Landing. Fingermarks on the same surface approx 70mm from the bottom edge and pointing towards the		A finger/palm mark in exhibit VE/32 is identified to a set of fingerprints held on the National Fingerprint Database in the name of: Laetitia Muzayire ref: DPA	
Evidence Type Supporting / Technical Information: Opinions and Interpretations: The findings expressed in this Streamlined Forensic Report are matters of opinion, not statements of fact. That opinion is reached following Analysis, Comparison and Evaluation of area of friction ridge detail. However, evaluation of forensic evidence such as this is supported by study and experience, applying specialist knowledge and skills to forge reliable opinions and interpretations, which are subjected to peer review (as defined within the organisation's Quality Management System) before final reporting. The decision-making process may be supported and evidenced through the use of working notes. Accreditation Declaration: Merseyside Police Forensic Services Department (Chief Constable or Merseyside Police) is a UKAS accredited testing laboratory, number 7919. Declaration of Compliance with the Code of Practice published by the Statutory Forensic Science Regulator. I can confirm that, to the best of my knowledge and belief, I have complied with the Code of Practice published by the statutory Forensic Regulator v1.

Case management — To the court and to the defence: The prosecution propose to rely on the forensic evidence contained in this SFR and if there is a trial, to adduce it by way of a s10 CJA 1967 admission to the general effect that the exhibit(s) listed were forensically examined and the examination produced the result(s) described. Therefore should there be a real issue in relation to this forensic evidence, such that the admission cannot be made, the prosecution ask that the defence identify the issue (Crim.PR.3.3 and Crim.PR 19.3(2)). If this report contains expert evidence, then, in accordance with CPR 19.3(2), the defence is required to serve a response to this report as soon as practicable, and in any event not more than 10 business days after service of the report setting out which, if any of the conclusions in this report are admitted as fact, and where a conclusion is not admitted what are the disputed issues concerning that conclusion. This SFR is not a witness statement to which the provisions of s9 CJA 1967 and Crim.PR 16 apply, nor is it an expert's report to which the provisions of Crim. PR 19.4 apply, its purpose being to introduce any expert evidence contained therein as admitted fact. If this SFR contains expert opinion, it is a summary of that opinion served pursuant to Crim. PR 19.3(1). SFRs assist courts to fulfil their duty to actively manage the case (Crim.PR 3.1) by ensuring that evidence is presented in the shortest and clearest way and by facilitating the early identification of the real issues. (Crim.PR 3.2). Each party must actively assist the court in fulfilling its duty (Crim.PR 3.3).

NB - Merseyside Police does not accept responsibility for the sensitivity or otherwise of this material. Police / Courts Please note that not all submitted exhibits/marks have been checked at this time and if you require further work you will need to contact the Fingerprint Bureau via email Fingerprint.Bureau.SSD@merseyside.police.uk with your request and rationale for the work.			
Additional information / Evidence Type Technical Information: Please note the above list of exhibits relates only to exhibits submitted for examination and are relevant to my area of expertise and / or to the findings set out in the Results/Findings section of this report. The list was accurate at the time this report was generated. All exhibits will not necessarily be listed here. Should a comprehensive list of exhibits be required, please contact the Investigating Officer. The prosecution will not ordinarily undertake further forensic analysis unless and until the exact issue that such analysis needs to address has been identified; and only if, in light of that issue, it is appropriate that the next stage of analysis should be undertaken by an expert instructed by the prosecution rather than an expert instructed by the defence. If appropriate a direction under Crim.PR 3.5(2)(h) as to the order in which the expert issues should be determined may be sought.			
Important: Where real issue(s) are identified and if additional forensic work is necessary, please notify the agreed Force contact in writing, listing the issue(s) to be further addressed. Delivery dates for additional forensic work to be agreed on a case by case basis.		Forensic Contact Details:	Fingerprint Bureau Merseyside Police DPA

FORENSIC RESULT REPORT - FINGERPRINTS

KEY (for SFR)

IDENTIFIED: A practitioner term used to describe the mark as being attributed to a particular individual. There is sufficient quality and quantity of ridge flow, ridge characteristics and/or detail in agreement with no unexplainable differences that in the opinion of the practitioner two areas of friction ridge detail were made by the same person.

ELIMINATED to another person: Identified, as explained above, but to a person having legitimate access to the exhibit.

EXCLUDED: There is sufficient detail in disagreement to conclude that the area of friction ridge detail was not deposited by this person.

INCONCLUSIVE: The determination that the level of agreement and/or disagreement is such that it is not possible either to conclude that the areas of friction ridge detail originated from the same person, or to exclude the particular person from being a donor of the unknown friction ridge detail.

INSUFFICIENT: The area of friction ridge detail contains insufficient detail for comparison purposes.

SEARCHED: A comparison of friction ridge detail against sets of fingerprints held on the Automated Fingerprint Identification System (AFIS) database.

NOT SEARCHED: Due to the limited quality and/or quantity of detail present, or for operational reasons, this mark has not been deemed suitable for search on the Automated Fingerprint Identification System (AFIS) database.

UNVERIFIED: This mark has been compared to the person named on the report but has not been verified / finalised so cannot be reported on at this time. Contact the Fingerprint Bureau if you require this additional work to be completed to enable us to report on the mark.

ORIENTATION: If this is available, an indication of orientation is included in the Results/Findings section. The direction that the tips of the fingers point towards is shown in an "O'clock" format.

IDENTIFIED TO OTHER PERSON: The finger/palm mark(s) has been formally identified to person(s) other than the subject of this MG22(b). A separate MG22(b) will cover these identifications.

NOT CHECKED / COMPARED: The person named in this report has not been checked against this exhibit.

PART: Used to highlight where an exhibit includes more than one fingerprint impression, with different statuses.
