

In circumstances where the IMEI and or IMSI are not available when call records are created, those records will be populated with a "Dummy" value. This will appear in call records as "999999999999994" in the case of an IMEI and "999999999999999" in the case of an IMSI.

The Telefonica UK Disclosure Team have processed the following request:
