Guidance for the YR Panel

The Purpose of the Youth Risk panel is:

- Identify and assess referrals to the Potentially Dangerous Persons Panel involving children.
- Provide a mechanism for offender management and safeguarding of children who are either a risk or at risk, particularly where there is no current case ownership.
- Apply problem-solving approaches to reduce both the risk posed by and to the individual.
- Where adopted, initiate an initial 8-week management period within MOSOVO, including a risk assessment.
- Facilitate a multi-agency approach to reduce victimization, reoffending, and escalation to MAPPA eligibility.
